A LITTLE ABOUT ZANZIBAR

What makes Zanzibar different to other tropical island destinations is the eclectic mix of sun, sea, sand and spice. Languishing just off mainland Tanzania in the turquoise-blue Indian Ocean, the island of Zanzibar conjures images of perfect billowing sailing boats and smiling locals.

So understandably, Zanzibar is famous, but away from the busy coastal resorts, you can still find quiet coves, dense mangroves and traditional villages.

Did you know: Zanzibar is a Muslim island, so dress appropriately – cover your shoulders and upper legs. Ask permission before photographing people.
